Experience

Jul 2024 - Aug 2024

Software Developer

Yaltes Elektronik Ve Bilgi Sistemleri Ticaret A.Ş İstanbul

- I did user registration program with java using redis which can only use with linux. I built that Program with OOP. I used threads in Java and when any user registered or updated program will send server a message that what admin done.
- Collaborated with cross-functional teams to deliver high-quality software solutions.
- Utilized Agile methodologies to drive project completion and meet deadlines.

Aug 2022 - Sep 2022

Data Analyst

Türkiye Sigorta

- I contributed to the development of a software that utilizes machine learning algorithms to analyze the relationships between the products purchased by customers and recommends relevant products.
- Conducted statistical analysis on customer demographics, improving targeted marketing campaigns.
- Utilized SQL to extract and manipulate data, creating actionable insights for stakeholders.

Jun 2021 - Jul 2021

Machine Learning Engineer

Bizim Hesap Bilgi Sistemleri A.Ş

- Collaborated with cross-functional teams to optimize neural network architectures for image recognition tasks.
- I conducted research on machine learning techniques.
- Developed and implemented machine learning models for predictive maintenance.

Education

2018 - 2024

Bachelor Degree

Karadeniz Technical University Turkey

Languages

English
Advanced

Deutsch
Elementary

Skills

Python	Machine Learning	Software	Artifficial Intelligence
Object orient Programming	C/C++	Algorithms	PHP
MySQL	Programming	Troubleshooting	Problem-solving
System architecture	Project management	Java	Technical research

Projects

Teknofest -Autonomous Unmanned Aerial Vehicle (UAV) for Teknofest 2020 (Object Detection And Image Processing)

Note Share- I developed a website where students and teachers can upload class-related notes. During the development of this site, I utilized SQL and PHP languages, while employing HTML and CSS for frontend design.

Certifications & Courses

Java Bootcamp- Backend Development with Java

Python Data AI Bootcamp

Teknofest-Participiation Certificiate

Borusan Technology School

Türkiye İŞ Bankası Pro School IT Class

Global AI Hub - Data Visualization with Python

Digital Talent Summit

Yapay Zekaya ilk Adım
